Washington, DC. 20510

Honorable Doug LaMalfa
Member of Congress, 1st District of California
322 Cannon House Office Building
Washington, DC. 20515

Subject: Rural county COVID-19 funding

Dear Senator Feinstein, Senator Harris, and Congressman La Malfa:

On behalf of the people of Sierra County, thank you for your leadership during this critical time and your efforts to address the significant health, safety and economic impacts associated with the COVID-19 pandemic.

As Congress negotiates a potential fourth COVID-19 response package, we urge you to provide direct and flexible funding to county governments of all sizes who are at ground-zero of this unprecedented public health and economic crisis.

In California, counties operate public hospitals, local public health departments, more than 800 long-term care facilities, and 750 behavioral health departments. We are also responsible for emergency operations centers, human services, jail management, 9-1-1 services, veteran's services, and the 'last of the first responders with coroners and medical examiners, among many other essential local government functions.

In a county with just 3,000 residents, we have limited resources and funding, but have the same responsibility as all other counties to keep our citizens safe. We are quite appreciative that our communities have taken this health pandemic seriously and to date Sierra County remains just one of five California counties with no reported COVID 19 cases. While part of that is due to good fortune, no doubt responsible community members and effective local government with a concerted message and strong responsive actions have helped. **Given our role at the front lines of this crisis, we strongly urge you to allocate resources directly to counties as most states mandate the implementation of public health and emergency response responsibilities to county governments.**

While the CARES Act (P.L. 116-136) provided \$150 billion for unanticipated expenditures for states and local governments, counties with populations below 500,000 are not eligible for direct funding and are instead at the mercy of the state – who are dealing with their own fiscal pressures. Even a significant subset of major

urban counties that are eligible for direct assistance under the Coronavirus Relief Fund will now see combined reductions of \$5.1 billion under the U.S. Treasury's guidance because many must now subtract city populations within their county boundaries, despite the fact that these counties are mandated to provide critical public health functions for their entire geographic area.

Given the unique county role of counties in our nation's public health and overall community response to this pandemic, we again respectfully urge you to support efforts to allocate resources directly to counties. **We further urge you not to use the outdated CDBG formula for the allocation of funds to local governments.**

We thank you again for your leadership during these unprecedented times. We would welcome the opportunity to discuss this issue further with your team and are committed to a solution that helps our nation mitigate, respond and recover from these historic times.

Sincerely,

SIERRA COUNTY
BOARD OF SUPERVISORS
