COMMENTS:

CLERK TO THE BOARD _____ DATE _____

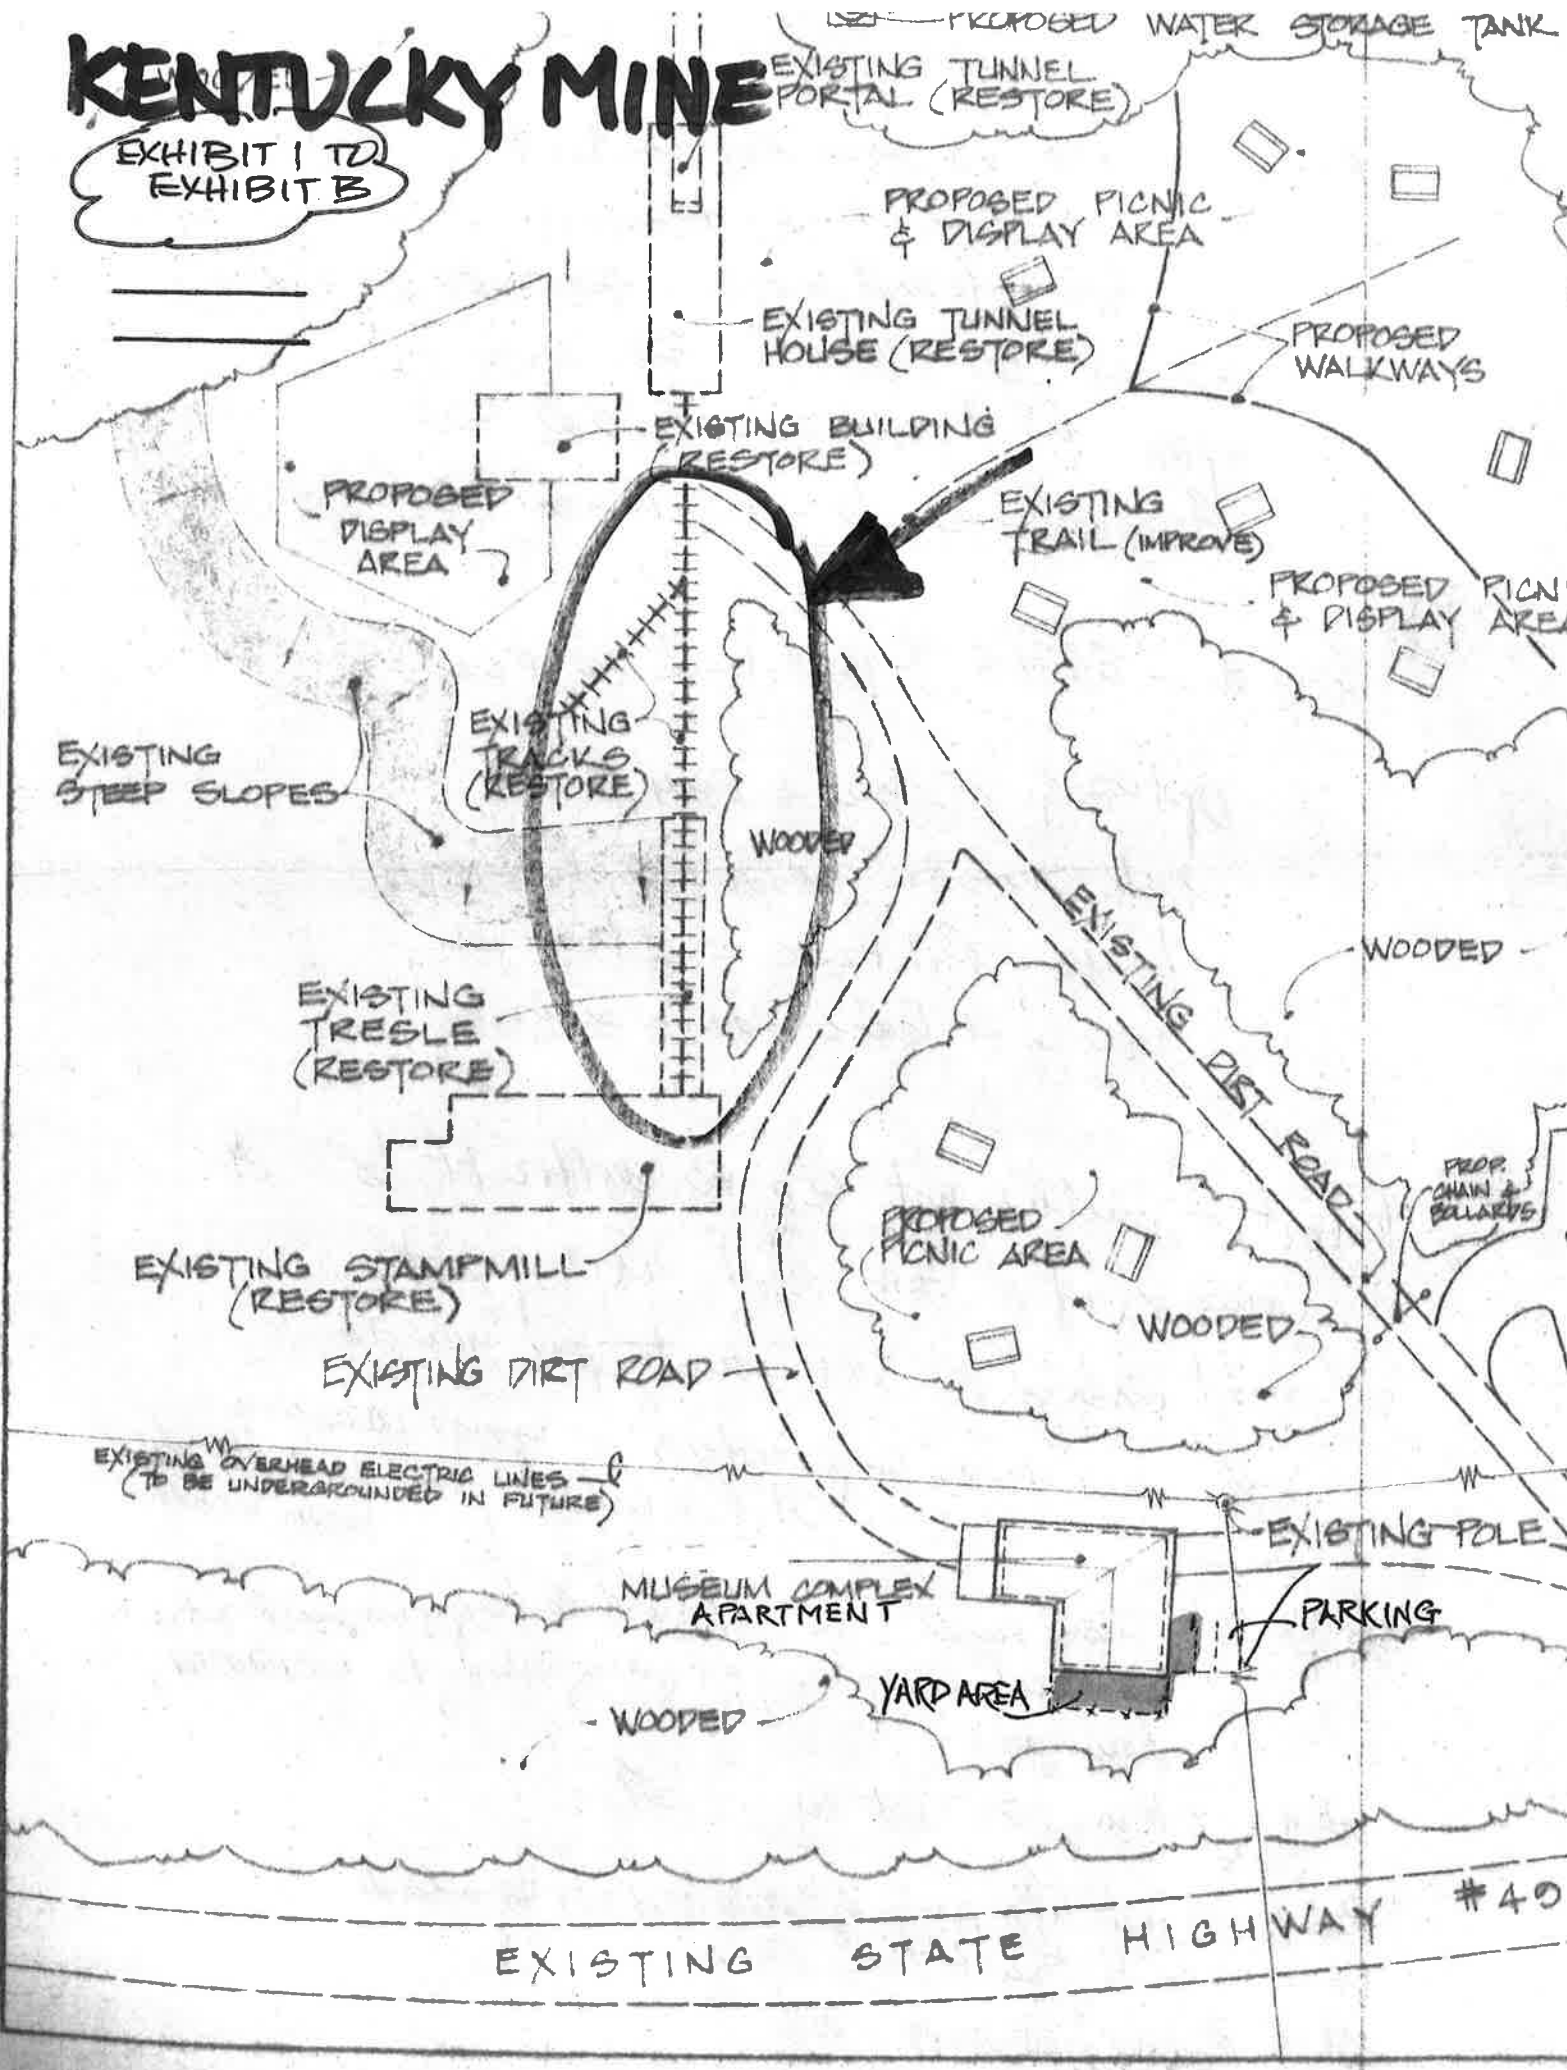

Agenda Item: Kentucky Mine Trestle

Background: The Kentucky Mine was recently inspected by County staff and an observation was made that the existing trestle is showing serious signs of structural decay in the logs and concerns with the structural integrity of the trestle in its entirety. As a result we requested the assistance of an Engineer to assist in the evaluation of the structure and as part of his observations, he is proposing a set a plans to graphically represent the current status and propose a set of plans from which the needed repairs can be used for bidding and completion. This agenda item is to discuss the discovered conditions, discuss possible remedies and estimated costs to accommodate the needed repairs.

Recommendation: Discuss and direct staff and anticipate a need for general fund contingencies if no other means of financing is found to be available.
