- CLERK TO THE BOARD DATE
Annual Report
2018

David Lile, County Director
530-251-6673 - dflile@ucanr.edu

Tracy Schohr, Livestock and Natural Resources
916-716-2643 cell - tkschohr@ucdavis.edu

Ryan Thompkins, Forestry
530-283-6125- retompkins@ucanr.edu

Kari O’Reilly, 4-H Program Representative
530-283- 6173 - koreilly@ucanr.edu

Thomas Getts, Weed Control and Cropping Systems
530-251-2650 - tjgetts@ucanr.edu

Barbara Goulet, Administrative Assistant
530-283-6270 - blgoulet@ucanr.edu
We are pleased to share this report highlighting programs from the past year. We’re so excited to bring Ryan Tompkins on board as our new Forestry Advisor. Ryan replaces Mike DeLasaux, who retired in June 2018. By adding Ryan we now have a full staff who covers the diversity of agricultural and natural resource issues in Plumas and Sierra counties. Tracy Schohr continues as our Livestock/Natural Resources Advisor where she has initiated new research, rancher workshops, and has been the communication liaison for wolf issues. Kari O’Reilly provides effective leadership to our 4-H program that exposes youth to agricultural production, science and technology, along with local youth educational gardening support, and hosts the annual 4-H Summer Camp for youth in Plumas and Sierra counties. Tom Getts, provides technical assistance to Plumas/Sierra farmers and land managers from Susanville, and continues his research new irrigation technology helping local farmers stay productive and viable. Finally, Barbara Goulet, serves as our Administrative Assistant who provides support not only to our staff, but our local Master Gardener Volunteers and 4-H Volunteers. Please feel free to give us a call or come by and see us any time!

- David Lile, County Director

The Plumas/Sierra group of Master Gardeners is an enthusiastic cadre of volunteers, trained by UCCE, who advice and technical support to backyard gardeners throughout both counties!
In the summer of 2018 UC Cooperative Extension Forestry Advisor Mike De Lasaux retired with over 25 years of service. Locally, Mike was instrumental in the development and activities of the Plumas Fire Safe Council and was involved in the Quincy Library Group. In addition, he developed the Forestry Institute of Teachers, that educated hundreds of school teachers across California on the importance of Forest Management. Thank you to Mike for a successful career of service.
Weed Ecology and Cropping Systems Advisor, Tom Getts, has been working with local agricultural producers for two years. His research and extension programs focus on providing insight to agronomic challenges and helping solve invasive weed problems wherever they grow.

**Outreach**

Updates on activities and research are distributed in newsletters and reports on the website.

Farm calls allow on-site visits with farmers to provide technical information to increase crop performance and control invasive weeds.

Getts and Schohr spoke at the 2018 Plumas-Sierra Ag Commissioner’s Grower Day, providing technical training to ranchers, farmers and foresters.

**Research**

Weed control trials demonstrating effectiveness of newly registered herbicides are conducted regionally to provide non biased information to hay growers.

Low Elevation Sprinkler Packages for center pivots are being tested in Sierra Valley for increased efficiency and reduced pumping cost.

Invasive weeds are problematic for all land owners. Research is being conducted to better control tall whitetop, medusahead, thistles and other species in the region!
Tracy Schohr is the Livestock and Natural Resources advisor. Schohr is conducting extension, education and applied research focusing on livestock production, economics, and sustainable range and pasture management. She is developing solutions to the complex issues facing commercial livestock producers in the region.

Continued research on irrigated pasture sites, assessing forage production and efficiency. Gathered final year of data on grazing meadows health project on US Forest Service lands.

Provided resources to ranchers impacted by the Camp Fire. Investigated forage and water quality impacts of fire in relation to cattle health.

Launched research project, equipping cattle with GPS collars to investigate livestock distribution and utilization on the Plumas National Forest.

Hosted multiple tours for ranchers and government officials regarding natural resources and livestock grazing in the region.

Supported ranchers operating with predators. Hosted a wolf community meeting with CA Department of Fish and Wildlife. Continued research on predator impacts to livestock production locally.

Provided technical assistance to ranchers on land management, regulatory compliance, animal health, and business planning.
4-H Community Education Specialist, Kari O’Reilly has been working with youth in Plumas and Sierra Counties for three years. Through community club programs, camps and in-school experiences, 4-H continues to extend it’s reach and benefit youth with impactful, hands-on, community service focused programming.

Club Programs
Plumas-Sierra 4-H boasts eight Community Club Programs in Loyalton, Sierra Valley, Portola, Quincy, Indian Valley and Chester. Enrollment is increasing!

STEM Projects
This Electrical Engineering project is one example of new STEM (science, technology, engineering and mathematics) projects being offered by local clubs.

Livestock Projects
Traditional 4-H livestock projects have benefited from new educational events geared towards deepening their experience.

In-School Programs
Traditional Collaborations between in-school garden programs and 4-H has led to exciting new projects like the new Seed Lending Library coming to the Quincy Public Library!

Community Service
4-Hers pledge their “hands to larger service” which means they continually participate in community service activities, like this 4-H member coloring Easter eggs with a resident of the long term care facility in Chester.

Camp
Our sleep away 4-H summer camp continues to thrive and grow! We are proud to offer an affordable, nature based camp for local youth ages 9-18! Where teens learn leadership skills as counselors.
