Sierra County Board of Supervisors,

The Board of Forestry and Fire Protection (Board) is in the process of updating its list of county Authorized Designees to review less than three-acre conversion exemptions pursuant to Section 1104.1 of Title 14 of the California Code of Regulations.

These regulations require that applicants for less than three-acre conversions pursuant to the Board’s regulations incorporate, within their application, a signed and dated statement from the authorized designee of a county Board of Supervisors stating that the conversion is in conformance with all county regulatory requirements.

The Board recognizes that Sierra County has already identified Authorized Designee(s) and appreciates and thanks the County for their participation and commitment to this process. However, in the interest of maintaining our list in the most current and accurate state possible, we are reaching out to all counties to provide us with up-to-date names and contact information for their current Authorized Designee(s) so that we may provide a current list to the public.

Currently, the Board has on file the following information for the County of Sierra:

The title designated by the County is:
Planning Director, Sierra County Planning Department

The current designee is:
Tim Beals
(530) 289-3251, tbeals@sierracounty.ca.gov

If there are any updates or modifications to this Authorized Designee, the Board would greatly appreciate any updated information that the County may provide. Any updates, responses, questions, or comments may be submitted to:
