HASKELL PEAK MEADOWS RESTORATION
SIERRA COUNTY
PROJECT ID: 2019211

Dear Board Members:

The Wildlife Conservation Board (WCB), in addition to other responsibilities, carries out a program that includes the enhancement or restoration of fish and wildlife habitat.

At this time, and in response to a request from South Yuba River Citizens League, WCB proposes to consider the allocation of funds for a grant to complete restoration plans, complete NEPA and CEQA, conduct baseline monitoring, and complete permit applications to restore 131 acres of meadow habitat at Haskell Headwater Fen, Chapman Saddle and Freeman Meadow owned by the U.S. Forest Service in the Tahoe National Forest in Sierra County. This proposal is presently scheduled for the February 26, 2020, Board meeting. An electronic copy of the preliminary agenda is available for your review at www.wcb.ca.gov under News and Announcements. A more complete description of each proposal will be contained in the final meeting Agenda, which will be available at www.wcb.ca.gov ten days prior to the Board meeting.

If you have any questions about this proposal or need additional information, please feel free to contact me at (916) 445-0137.

Sincerely,

A handwritten signature in blue ink that reads "John P. Donnelly". The signature is fluid and cursive, with a large initial "J" and "P".

John P. Donnelly
