

Mission Statement

The Sierra County Education Coalition for Health Options (ECHO) supports the well-being of all residents through education, outreach and advocacy to encourage community members to become leaders that facilitate educated choices.

*If you are interested in using your skills and ideas to address health issues affecting our county and to encourage community members to become leaders that facilitate educated choices, please join us for our next Education Coalition on Health Options (ECHO) Meeting!

Sierra County Public Health Tobacco Use Reduction Program

Education Coalition for Health Options

*Community involvement
through education,
outreach and advocacy.*

Goals

1. Address Tobacco Product waste in our environment
2. Address flavored tobacco products and paraphernalia
3. Address Cessation support in our communities
4. Promote and support all businesses through education

Benefits

Collaboration and community involvement

Learn about advocacy, community organizing, rural tobacco issues and other health and wellness issues.

Make a difference in our communities using your skills and knowledge

Increase awareness about the tactics used by the tobacco industry and others to target youth

Platform and audience for your ideas and new concepts around prevention

ECHO Collaborators Include

Sierra County Local Planning Commission for the Child Care Council

SPJUSD/SCOE Tobacco Use Prevention Education

Sierra County Health Prism
