An appropriate method of notifying small water system users of imminent danger from unsafe water must be used. Users must be informed that water must not be consumed until it is safe to do so. Please acknowledge methods you will use to notify your water system users in the event you must initiate your Emergency Notification Plan.

I propose to notify my water consumers by the following method(s):

<input type="checkbox"/>	Post warnings in a conspicuous place	<input type="checkbox"/>	Shutting off all water
<input type="checkbox"/>	Door to door contact	<input type="checkbox"/>	Written hand outs
<input type="checkbox"/>	Telephone	<input type="checkbox"/>	<i>Notification Plan Attached</i>
<input type="checkbox"/>	I propose to notify my water consumers by the following alternative method:		

Consideration shall be given to renters and part-time residents. Ensure that the notification procedures you describe are practical and that you will be able to actually implement them in the event of an emergency.
