Disclaimer: Sierra County is not able to provide any recommendation for qualified professionals. This is not a complete list of every qualified professional in the area. The intent of this list is solely to help our community members find a professional to perform soil testing and onsite wastewater treatment system (OWTS) design in Sierra County. You may hire any licensed professional in the State of California. Qualified professional means an individual licensed or certified by a State of California agency to design an OWTS and practice as professionals for other associated reports, as allowed under their license or registration.
